

To Whom It May Concern:

We the free and united people of America and the world are writing in regards to the unlawful and corrupt actions taken by the healthcare industry, bureaucrats, and media regarding COVID-19. The actions taken for nearly two years now have stripped people of their rights, decimated the US Constitution, violated the principles of international law embodied in the Nuremburg Code, and ignored basic and inalienable human rights. The people behind this have leveraged their privileged positions to make billions of dollars at the expense of humanity and we are unwilling to allow this to continue.

For decades, the field of public health has researched the use of fear as a tool to manipulate people into action. The use of that tool has now been perfected and implemented against the people of the world with COVID-19. Evidence of this knowledge can be found in a CDC presentation, other DHHS materials, and in numerous academic journals. The intentional use of fear to sow hate, division, and discord is unethical, unacceptable, and must stop immediately.

The reality is that COVID-19 has a 99%+ recovery rate in most of the population and approximately a 94% recovery rate in the most vulnerable. Compare this to the original SARS which had approximately a 9% case fatality rate and the original MERS which had over a 30% case fatality rate. We did not lockdown, mask, or even widely acknowledge these diseases when they were prevalent despite the fact that they had similar rates of spread to COVID-19.

This fear has been used as a marketing tool to attempt to justify previously unthinkable actions by bureaucrats and public health figures around the world; the most egregious of which is the forced injection of gene therapy drugs into healthy people.¹ Gene therapy literally alters the genetic makeup of a human being and simply cannot legally, morally, or ethically be forced on anyone, ever. If the decision to alter one's own genetic makeup does not rest with the individual then there can be no argument that freedom is lost.

Not only are the COVID "vaccines" admittedly a gene therapy, they are inarguably unsafe. The swine flu vaccine was pulled from the market after just over 20 deaths, the Chevy Volt was recently recalled over the potential for battery fires, but the Pfizer shot was given expanded authorization despite the high recovery rate from COVID-19 and the fact that Pfizer's own documents, submitted to the DHHS show that over 1200 people died in less than the first 3 months of authorization. This is nothing more than corruption.

The COVID shots are also ineffective. A recent Department of Defense document stated that 71% of new cases of COVID-19 in the Medicare population are in fully vaccinated individuals and 60% of hospitalizations are in the fully vaccinated. This same document also stated that the injections are even less effective in North American Natives, Hispanics, and "Blacks" (the document apparently was unconcerned with political correctness). If the

¹ Moderna acknowledged in SEC filings that mRNA technology is a gene therapy. This has also been acknowledged in documents from Pfizer and by numerous scientists.

“vaccines” do not stop the spread, do not stop hospitalization, alter our genes, and have not even existed long enough for long term testing, why are we attempting to violate people’s inalienable rights by forcing them?

The fact is that we are now moving ahead as quickly as possible with these COVID shots. We are even authorizing them in children despite the fact that people under 30 are at ZERO statistical risk of death from COVID-19 and the shots appear far more dangerous to children than the disease. Further, we are doing this with no transparency. The DHHS has done everything possible to cover up the side effects and dangers of these injections, even going so far as to request 55 years to release the documents they relied upon to authorize/approve these deadly injections. How can informed consent be given without a true understanding of the risk?

This situation is untenable and we demand that it be remedied. We the free people of this nation and world will no longer comply with mandates that fail to consider our inalienable rights. In the spirit of Martin Luther King, Gandhi, and Jesus Christ we will spread our message through peace and we will resist peacefully, but make no mistake, we WILL resist. The accompanying presentation found at www.renz-law.com supplies you with additional data to demonstrate everything stated here.

We now demand the following from our elected leaders, and vow to remember your actions or inaction when it comes time to vote and donate:

1. The resignation/termination of Anthony Fauci and civil/criminal investigation of his actions by a truly INDEPENDENT prosecutor;
2. The criminal and civil investigation of those involved with any gain of function research that may have been responsible for the creation of SARs-COV2;
3. Investigations – criminal and civil – into the deceptive and misleading push for the gene therapy injections that have been falsely labeled as vaccines (only after the definition of “vaccine” was changed);
 - a. This should include RICO and fraud claims (as is appropriate) involving the “Trusted News Initiative”, the drug companies, hospital systems, and some government actors;
4. Transparency legislation that gives the public immediate access to the raw data and submitted documents related to the shots and COVID “pandemic” – If there is nothing to hide NO ONE should oppose transparency;
 - a. This should be passed on the state level as well;
5. Liability for injury from vaccines under the same rules as any other product – if they are safe there should be no opposition to liability to help those that have been injured;
6. Legislation that recognizes the absolute right to reject medical treatment or vaccination of any type for ANY reason;
7. NO funding or state/federal contracts with ANY organization that discriminates based on vaccination or health status;

8. Funding for the hundreds of thousands of individuals injured by job loss and “vaccine” injury;
9. NO on vaccination status tracking legislation; and
10. Our local law enforcement to uphold their oaths to uphold the Constitution and refuse to enforce unconstitutional mandates and rules.
